Complex Profiles

From simple cones to complex parabolic and free-form geometries, we produce according to your drawings and requirements.

NO EXPENSIVE MOLDS

Spinning eliminates the need for costly press molds, offering a more economical solution, especially for low to medium volumes.

FAST PROTOTYPING AND PRODUCTION

Quick setup and short lead times for prototypes and serial production.

HIGH DIMENSIONAL ACCURACY

Consistent wall thickness and excellent dimensional control to meet your requirements.

SEAMLESS ONE-PIECE PARTS

Spun parts are produced without weld seams, providing higher strength, better appearance and improved leak-tightness.

MATERIAL EFFICIENCY

Near-net-shape forming with minimal material waste.

FLEXIBLE DESIGN CHANGES

Design modifications can be implemented easily without new tooling.
